

MOUNTAIN BIKING IS NOT A CRIME

Mountainbikingisnotacrime is not an organization, it is actually a movement of concerned riders who see the pressures of development, population growth and politics squeezing out our access to trails and green-spaces.

We believe in equal access for trail riding through the incorporation of smart management, cooperative relationships with mtb clubs, and transparency of decision making for all public green-spaces.

We look to organized clubs and societies as the groups to work with the land managers to develop plans to enhance mountain bikers trail access. To implement stewardship relationships for the management of public green-spaces.

We want to get the word out to those in power that we want legal, sustainable, safe and equal access to land to build trail on and to develop more quality places to ride!

***Join us on the "Ride For Trails" Sunday August 27th at 12:00 noon on the Esquimalt side of the Johnson Street Bridge in downtown Victoria!
Be there, wear Green and show your support for local trail access in Victoria or in your area.***
